Hi Bill,

Thanks for the enquiry.

The Arria 10 Signal Integrity kit is open for booking. There are two variants of the kit, the GX and GT versions, the GT being the faster XCVR speeds (28.3Gbps)

Signal Integrity Kit

Arria10 GX	DK-SI-10AX115S-A	\$8,995	17.4Gbps
Arria10 GT	DK-SI-10AT115S-A	\$12,495	28.3Gbps

There are 50 Signal Integrity dev kits slated for customer delivery around Sept. 2014.

I will give you a call to discuss.

Thanks Bill

Bert Polk

Hey Sean,

How do we get on the Arria 10 FPGA Signal Integrity Kit waiting list?

Thanks much,

Bill

PS, Do you have an eta for the connectors?

Hi Bill,

The price is \$8995 for the GX kit (17Gbps) and \$12,495 for the GT (28Gbps) kit.

The availability is sometime around Aug, Sept. The factory is stating a July delivery, but I would add at least a month buffer realistically.

Are you planning to use the Arria 10 in a design?

If there is anything I can assist with please let me know.

I will plan to call you in the next day or two.

Thanks again Bill

Bert Polk

Hi Robert...

Do you have price and availability for the Dev Boards also?

Thanks,

Bill

hi,

there is talk again of pulling az's participation in the lar backend

due to lack of progress. i will let you know more in the next few days. also, there is now some non-zero chance i will not be going to weizmann. it will you be you alone but i will prepare all the talks. i know better about this tomorrow..kj
